Description

For Sale Keswickian Lad, Length 60ft, Beam 6ft10ins, Built 1999 by Paul Barber and with an owner fit out, with a Traditional Stern and vintage Kelvin K2 44Hp Diesel engine from 1950. On entering the boat from the stern, we have the Boatman's cabin with a solid fuel stove, single/ double berth, traditionally painted pictures and decoration. Moving forwards is the engine room with 2 side hatches, and where the Kevin K2 is located. The engine has a Borg Warner gearbox and is controlled via a modern Morse control. There is a day fuel tank and the main fuel tank holds 450 litres. This area also houses the batteries, along with the 3kw Victron inverter charger and solar panel controller. Next is the bedroom with a fixed double bed with overhead lockers and under storage. Moving forwards again is the bathroom which is fully tiled and has a shower cubical, hand wash basin, porta potti toilet and cupboard storage. In the galley there is a full size gas cooker, washing machine, Inlander 12/24volt fridge freezer, gas hot water boiler, and tiled worktops and splash backs, which is all in superb condition. Above this area is a Houdini type hatch for additional light and ventilation. Towards the bow of the boat is the main living area, which features 2 side hatches and another overhead Houdini type hatch, which makes this area feel light and airy. There is a solid fuel stove with back boiler, sofa bed, gunnel storage and free standing furniture. The bow area has a fitted cover, table and additional storage. The boat is spray foam insulated, has a Aquafax 24v Bow Thruster, 640w of solar panels, 240 volts hookup, Bsc to 2030, and is 1 owners from new. It was blacked in 2024 and had an out of water Hull survey in 2024. We have lots of paperwork and the boat has been well maintained by it's owner, who has cherished it, there is so much more than I can put in this description. The Boat is priced at £69,995 and is available to view by appointment at our Shardlow Marina Sales office. Please call David on 07721 382619.
